Dear Physician,

Thank you for considering the approval of your patient to participate in the following programs.

**Wellness House Exercise Programs**

Strong research supports exercise during cancer to improve immune function, pain, fatigue sense of physical and psychological well-being, and in some cases, survivorship. Exercise programs are offered in a safe, supportive environment to help participants cope with the cancer experience. Instructors are credentialed fitness specialists.

- **Exercise During Cancer Tx** is designed to improve activities of daily living and reduce cancer treatment related side effects.
- **Exercise After Cancer Tx** offers all around conditioning to maintain or improve overall fitness.
- **Prostate Cancer Exercise** is specific to prostate cancer recovery with attention to lymphedema.
- **Bodyweight Exercises for Strength and Balance** is designed to maintain or improve balance, coordination without equipment.
- **Restore Your Core After Cancer** focuses on rebuilding core muscles after cancer.
- **Pilates and Nia** include beginner to immediate exercises.
- **Qigong, Tai Chi, Chair Yoga, Mat Yoga, and Stretching through Cancer** focus on mind body movement practices to promote stress reduction an relaxation as well as increase strength, flexibility, and balance.

**Fitness Assessments** are offered to interested participants as a way to evaluate fitness, ensure proper class placement, set fitness related goals and monitor fitness changes.

The first 15 to 30 minutes of most classes consist of aerobic exercise using stationary bicycles, treadmills, Nustep, rebounders, or ellipticals. The remaining 30 to 45 minutes involve instructor-led group exercises that may include chairs, weights, bands. Balls, mats, steps or other fitness equipment. The emphasis is on moderate, gradual, consistent effort focused on health-related fitness with special attention to safety. Wellness House encourages participants to seek individual physical therapy for rehab needs.

**Wellness House Wellness Tune-Up Programs**

- Experienced and trained therapists offer individual, 45 minute sessions that are gentle and fully clothed for the purpose of stress reduction or relaxation.
- **Massage Therapy** involves manual techniques to manipulate the muscles and soft tissues.
- **Acupuncture** utilizes sterile needles and is done in a clean, safe environment.

Thank you for supporting your patient’s interest in Wellness House programs. We also offer many other cancer wellness programs that compliment medical treatment: support groups, expert speakers, nutrition programs, mind-body classes and much more. All programs and services are provided at no cost to those actively seeking to overcome and effects of cancer.

Sincerely,

Angie Ruggiero, ACE CPT, ACE GFI, ACSM/ACS CET
