Dear Physician,

Thank you for considering the approval of your patient to participate in the following programs.

Wellness House Exercise Programs

Strong research supports exercise during cancer to improve immune function, pain, fatigue sense of physical and psychological well-being, and in some cases, survivorship. Exercise programs are offered in a safe, supportive environment to help participants cope with the cancer experience. Instructors are credentialed fitness specialists

Exercise During Cancer Tx is designed to improve activities of daily living and reduce cancer treatment related side effects

Exercise After Cancer Tx offers all around conditioning to maintain or improve overall fitness

Breast Cancer Exercise is specific to breast cancer recovery with attention to lymphedema

Prostate Cancer Exercise is specific to prostate cancer recovery with attention to pelvic floor health

Bodyweight Exercises for Strength and Balance is designed to maintain or improve balance, coordination without equipment

Restore Your Core After Cancer focuses on rebuilding core muscles after cancer

Pilates and Nia include beginner to immediate exercises

Qigong, Tai Chi, Chair Yoga, Mat Yoga, and Stretching through Cancer focus on mind body movement practices to promote stress reduction an relaxation as well as increase strength, flexibility, and balance

Fitness Assessments are offered to interested participants as a way to evaluate fitness, ensure proper class placement, set fitness related goals and monitor fitness changes

The first 15 to 30 minutes of most classes consist of aerobic exercise using stationary bicycles, treadmills, Nustep, rebounders, or ellipticals. The remaining 30 to 45 minutes involve instructor- led group exercises that may include chairs, weights, bands. Balls, mats, steps or other fitness equipment. The emphasis is on moderate, gradual, consistent effort focused on health- related fitness with special attention to safety. Wellness House encourages participants to seek individual physical therapy for rehab needs.

Wellness House Wellness Tune- Up Programs

Experienced and trained therapists offer individual, 45 minute sessions that are gentle and fully clothed for the purpose of stress reduction or relaxation.

Massage Therapy involves manual techniques to manipulate the muscles and soft tissues

Acupuncture utilizes sterile needles and is done in a clean, safe environment

Thank you for supporting your patient's interest in Wellness House programs. We also offer many other cancer wellness programs that compliment medical treatment: support groups, expert speakers, nutrition programs, mind-body classes and much more. All programs and services are provided at no cost to those actively seeking to overcome and effects of cancer.

Sincerely,

Jadyn Chipman, ACSM, GEI, ACSM/ACS CET
Exercise and Stress Management Manager
